BD

Wednesday, October 29

Location: Espacio Cultural Universitario (ECU)

12.00 a 15.00 h	Accreditations	
15.00 a 16.30 h	Early Career Researchers Session 1: Luciano D’Attilio (IDICER) Soledad Gori (IQUIBICEN) Renata Curciarello (IIFP) Maria Belén Vecchione (INBIRS) Sofía Noli Truant (IDEHU) Chairs: Belkis Maletto (CIBICI) Estrella Levi (CENTRO DE INVESTI- GACIONES ONCOLOGICAS - FUCA)	
16.30 h	Coffee Break	
17.00 a 18.30 h	Session 1: Immunotherapy and Precision Medicine Jose Cohen (Inst. MONDOR, France) CD38 Blockade to Controls GVHD: Clinical Relevance in Humans and Preclinical Validation in Mice Eduardo Chuluyán (CEFYBO) Bioartificial Platforms: Bridging Immunology and Precision Medicine antigens Joshua Waterfall (Inst. CURIE, France) Cryptic transcripts as a source of non-canonical tumor antigens Chair: Norberto Zwirner (IBYME) María de los A. Serrandell (UNLP)	
18.45 a 19.15 h	Opening Ceremony Opening Remarks Ana Rosa Pérez, President of SAI, and Eliane Piaggio, Co-organizer of FAIC. Frédéric Depetris, Director of the Institut Français d’Argentine and Counselor for Cooperation and Cultural Action (COCAC) at the Embassy of France. Official Welcome Address Jorge Molinas, Dean of Faculty of Medical Sciences of Universidad Nacional de Rosario (UNR) Franco Bartolacci, Rector of Universidad Nacional de Rosario (UNR)	

Wednesday, October 29

19.15 a 20.30 h	Keynote Lecture Sebastián Amigorena (Inst. CURIE, France) mRNA splicing generates tumor-specific antigens and new protein isoforms Chairs: Eliane Piaggio (Inst. CURIE, France) Ana R Perez (IDICER)
20.00 a 21.30 h	Welcome Cocktail (ECU)

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

08.30 a 10.00 h	ROOM 1	Early Career Researchers Session 2: Ileana Moreira (Hosp. Gutiérrez) Lucía Boffelli (CIBICI) Ada Blidner (IBYME) Gonzalo Acevedo (UCTHP-CONICET-Hosp. El Calafate) Chairs: Pilar Aoki (CIBICI) Rodrigo Hernández Del Pino (CIT NOBA - UNNOBA-UNSAAdA)
	ROOM 2	Oral Session 1 (6 speakers - 10 min each + 5 min for questions) Chairs: Romina Fernández Brando (IMEX) Susana Salva (CERELA)
10.00 h	Coffee Break	
10.30 a 12.00 h	ROOM 1	Session 2: B-Lymphocytes and Humoral Immunity Virginia Rivero (CIBICI): Age-associated B cells: from aging to autoimmunity Pascal Poignard (Univ. Grenoble Alpes, France): Monoclonal antibodies in the fight against infectious diseases: from therapeutic agents to tools for antigen discovery and vaccine design Chairs: Silvia Di Genaro (IMIBIO-SL) Adriana Gruppi (CIBICI)
	ROOM 2	Session 3: Inborn Errors of Immunity Frédéric Rieux-Laucat (Imagine Institute, France): New monigenic predisposition to autoimmunity Virginia Paolini (AINCA): Autoimmune lymphoproliferative disease: the importance of seeing the whole picture Carolina Bouso (Chile, AINCA): Complement system and Immune dysregulation: the piece that completes the puzzle Chairs: Miguel Galicchio (Hosp. Vilela - AINCA) Gabriela Salamone (IMEX)

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

10.30 a 12.00 h	ROOM 3	Sponsored Talk: The Use of Spectral Flow Cytometry to Characterize Human Memory T Cells. CyTek Boscience. Diana Bonilla (USA)	
12.00 a 13.30 h	ROOM 2	Talks with Experts - I: Real-World Research: Translating Science into Impact Norberto Zwirner (IBYME) Marta Toscano (Hosp.Oñativia, Salta)	
	ROOM 3	Sponsored Talk: Gematec: driving cytometry, empowering your laboratory Carla Pascuale. Gematec (Argentina)	
13.30 a 15.00 h	DOME	Poster Session 1	ROOM 3 Poster Session 2
15.00 a 16.30 h	ROOM 1	Session 4: Neuro-immuno-endocrinology and Immuno-Metabolism Marco Aurélio Ramirez Vinolo (Inst. Biología, Campinas, Brazil): Exploring the molecular mechanisms of intestinal Host-Microbiota interactions Carolina Jancic (IMEX): γδ T cells in glioblastoma: Immune response and tumor-derived components Chairs: Martin Rumbo (IIFP) Luciano D’Attilio (IDICER) Mini-Orals: Alejandra Infante (IMEX): TSLP as a novel therapeutic axis in Glioblastoma: modulation of the tumor and immune microenvironment through interplay with the cholinergic system. Tomás Grosso (IMEX): Functionalized Extracellular Vesicles: Reprogramming Inflammation through Adenosine Production and Targeted Delivery	

Thursday, October 30

Location: Faculty of Medical Sciences - National University of Rosario

15.00 a 16.30 h	ROOM 2	Session 5: Translational Immunology Eliane Piaggio (Inst. CURIE, France): Single Cell Profiling of Tregs: Implications for Tumor Immunity and Cancer Therapy Álvaro Lladser (Fund. Ciencia y Vida, Chile): Dissecting the crossroads of circulating and tissue-resident T cells in solid tumors Santiago Zelenay (Manchester Institute, UK): The dual role of inflammation in cancer immunity Chairs: Eduardo Chuluyán (CEFYO) Gabriel Morón (CIBICI)
16.30 h		Coffee Break
17.00 a 18.15 h	ROOM 1	Session 6: Infection and Immunity Philippe Benaroch (Inst. CURIE, France): Molecular coupling of constitutive fluid uptake and intrinsic antiviral resistance in human macrophages Virginia Pasquinelli (UNNOBA): From C. difficile to M. tuberculosis infection: a gut lung tale Chairs: Ana Ceballos (INBIRS) Florencia Quiroga (INBIRS)
	ROOM 2	Session 7: Vaccines Carolina Veaute (LIE-UNL): The Role of Adjuvants in Modulating Immunity Using Staphylococcus aureus Proteins as a Model Daniela Hozbor (IBBM): Development of vaccine prototypes for resurgent diseases: lessons learned and consolidation of a pertussis platform based on OMVs Chairs: Malchiodi Emilio (IDEHU) Andres Alloatti (IDICER)
19.00 a 21.00 h	ROOM 2	SAI Lifetime Achievement Awards SAI Assembly

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

08.30 a 10.00 h	ROOM 1	Early Career Researchers Session 3: Adrián Friedrich (IBYME) Eva Vélez (CERELA) Samantha Funes (IMIBIO-SL) Karina Pasquevich (IIBIO-UNSaM) Chairs: Agustina Errea (IIFP) Bettina Bongiovanni (IDICER)
	ROOM 2	Oral Session 2 (6 speakers - 10 min each + 5 min for questions) Chairs: Renata Curciarello (IIFP) Paola Smaldini (IIFP)
10.00 h	Coffee Break	
10.30 a 12.00 h	ROOM 1	Session 8: Innate Immunity Julie Helft (Inst. Cochin, France): Macrophages and T cell immunity in Cancer Pierre GUERMONPREZ (Inst. Pasteur, France): Dendritic cells infiltrating tumors: challenges and opportunities Analia Trevani (IMEX): Neutrophil extracellular vesicles in Hemolytic Uremic Syndrome development Chairs: Guillermo Giambartolomei (INIGEM) Juliana Idoyaga (La Jolla, EEUU)
	ROOM 2	Session 9: Host-Pathogen Interactions Diana Hansen (Monash University, Australia): Systems immunology approaches for the identification of biomarkers of susceptibility and immunity to severe dengue fever Paula Barrionuevo (IMEX): MHC-I down-modulation by bacterial RNA: from an immune evasion strategy to a potential therapeutic approach Chairs: Cinthia Stempin (CIBICI) Silvia Cazorla (CERELA)

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

10.30 a 12.00 h	ROOM 3	Sponsored Talk: BD FACSDiscover: Redefining Flow Cytometry Through Spectral and Real-Time Imaging Innovation Juan Mucci BD (Argentina) & LOBOV	
12.00 a 13.30 h	ROOM 1	Talks with Experts - II: Real-World Research: Translating Science into Impact Luciana Balboa (INBIRS) / Juliana Cassataro (IIBIO-UNSaM)	
	ROOM 2	Immunopaedia: Opportunities and Career Development for young immunologists Alejandra Urioste	
	ROOM 3	Special Session: How to develop as a scientific project manager?" J��r��mie Goldstein (Inst. CURIE, France)	
13.30 a 15.00 h	DOME	Poster Session 3	ROOM 3 Poster Session 4
15.00 a 16.30 h	ROOM 1	Session 10: Onco Immunology Mariana Salatino (IBYME): Impact of endocrine therapy on immunotherapy response in luminal breast cancer Marianne Burbage (Inst. CURIE, France): Targeting the splicing machinery to modulate tumour immunogenicity Juliana Idoyaga (UC San Diego, La Jolla, EEUU): Dendritic cell heterogeneity: subsets and cell-fate-switching Chairs: Romina Gamberale (IMEX) Nicol��s Nu��ez (CIBICI)	

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

15.00 a 16.30 h	ROOM 2	Session 11: Clinical immunology Olivier Boyer (PAN'THER, University of Rouen, France): Immune-mediated necrotizing myopathies from mice to humans and vice versa Belén Almejún (IQUIBICEN): Diagnosing the Undiagnosed: New Variants and Functional Genomics in Inborn Errors of Immunity Helene Salmon (Inst. CURIE, France): Cancer-associated fibroblasts and control of T cell infiltration in lung and head & neck cancer	Chairs: Ileana Moreira (Hosp. Gutiérrez) Alejandra Ensinck (Serv. InmunoHematología - FBioyF -UNR)
16.30 h	Coffee Break		
17.00 a 18.30 h	ROOM 1	Session 12: Mucosal and Reproductive Immunology Denise Morais da Fonseca (USP, Brazil): Infection-Induced Treg Dysfunction: A Double-Edged Sword for Tissue-specific Immunity Karina Mariño (IBYME): An Altered Glycome Shapes IgA B-Cell Responses and Gut Immunity During Intestinal Inflammation Damian Muzzio (Greifswald University, Germany): How Immune Cells Adapt to Pregnancy and the Microbial Landscap	Chairs: Rossana Ramhost (IQUIBICEN) Ruben Motrich (CIBICI)
	ROOM 2	Session 13: Adaptive Immunity Luis Graca (Lisbon Univ. Portugal): Regulation of humoral responses in human autoimmunity Eva Acosta Rodríguez (CIBICI): A Tale of Changing Personalities: Treg Cell Heterogeneity and Its Stage-Dependent Impact in T. cruzi Infection	Chairs: C.Cristina Motrán (CIBICI) Karina Gómez (INGEBI)

Friday, October 31

Location: Faculty of Medical Sciences - National University of Rosario

18.30 a 19.30 h	ROOM 2	Trends in Promotion Policies for Scientific Careers Luciana Balboa (INBIRS) Eva Acosta Rodríguez (CIBICI) Chairs: Natalia Santucci (IDICER) Oscar Bottasso (IDICER)
21.00 h		Farewell

Saturday, November 1

Location: Faculty of Medical Sciences - National University of Rosario

10.00 a 12.00 h	ROOM 2	Awards and Closing Ceremony SATZ Award Chairs: Ana R. Pérez (IDICER) Iván Marcipar (LTI-UNL) Mariana Salatino (IBYME) Clinical Research Award Chairs: Mirta Giordano (IMEX) Oscar Bottasso (IDICER) Eliane Piaggio (Inst. CURIE, France) Best Poster Award Chairs: Soledad Gori (IQUIBICEN) Ariana Díaz (IDICER) Cecilia Vila (IDEHU)
